Prome vice-presidente di Fedecamaras, Venezuela:

“Empresario y hopi otro persona involucra den e tema ta sigui cu hopi optimismo cu por habri e frontera”

For di 2019 frontera entre Aruba y Venezuela ta cera, tanto pa vuelonan directo como pa transporte marítimo directo. Esaki, manera conoci caba, tin su efectonan ariba diferente sector, sobretodo den e sector di comercio. Den un entrevista pa Bon Dia Aruba, Sr. Adan Célis, prome vice-presidente di Fedecamaras Venezuela, a splica ariba e importancia y plannan di sensibilisacion pa elimina e ciere di e frontera entre e dos nacionnan.

Célis, kende ta di bishita na Aruba y lo reuni cu Minister di Labor, Energia y Integracion, Glenbert Croes, a splica den su entrevista cu e tema di sensibilisacion tin un rol hopi importante pa logra obhetivo di elimina e ciere di e frontera. “Sensibilisa e opinion publico y sensibilisa e funcionarionan di tanto e gobierno Venezolano como e gobiernonan di islanan ABC pa por lanta e restriccion cu tin entre e pueblonan ruman aki”, Célis a bisa.

El a remarca cu mas leu di e diferencianan cu por tin entre e gobiernonan, e pueblonan mester ta uni, no mester tin niun hende cu mester revoca e libertad y suprimi e dos pueblonan, y e ta segura cu tin formanan di controla tur cos sin e necesidad di yega na ciere di e fronteranan.

Despues di casi tres aña cu e frontera ta cera, e procesonan di negociacion pa logra e obhetivo di habri e frontera a demostra di ta procesonan complica cu ta rekeri hopi diplomacia di ambos pais y palabracionnan concreto di hopi

medida di control cu mester haci. Pero Célis a segura cu nan ta keda optimista cu lo por habri e fronteranan pa comercio.

“Por lo tanto mi ta kere cu den e proceso cu nos ta y si nos continua haci esaki, e empresarionan y hopi otro personanan cu ta involucra den e tema ta sigui cu hopi optimismo e realidad cu nos lo por habri e fronteranan pa e comercio, pero tambe e frontera pa e intercambio di persona”, el a agrega.

Sin duda e relacion entre e dos nacionnan, Venezuela y Aruba, ta uno cu hopi historia y durante su entrevista Célis a accentua e “hermandad historico” cu tin entre e pueblonan. El a subraya cu tin posibilidadnan di tur loke ta e comercio, turismo y sin laga afo oportunidad di cuida di salud. A pesar di e situacion grave humanitario cu tin na Venezuela, el a enfatisa cu na Venezuela tin ainda un sistema medico hopi bon, e sistema medico priva specialmente, cu segun el a indica ta uno cu tin hopi bon dokter ainda.

E prome vice-presidente di Fedecamaras a ratifica cu e turismo Venezolano ta representa tambe un papel hopi importante pa e islanan Hulandes y por supuesto tur e factornan di comercio. “Asina ta nos ta bay sigui cu e proceso aki di sensibilisacion y nos ta bay sigui pusha pa nos por logra habri pa caba e fronteranan y por tin e intercambio di persona y comercio, manera cu e tabata tradicionalmente, y nos ta spera cu e por continua”, el a finalisa.

E situacion alrededor di e ciere di e frontera entre Aruba y Venezuela a cuminsa na momento cu e presidente di Venezuela, Nicolas Maduro, a dicidi cu pa un periodo di 72 ora dia 5 di januari di 2018, el lo cera e frontera. E medida aki tabata dirigi pa e islanan di Corsou y Boneiro y e tempo aya, Maduro a segura cu e decision aki tabata “pa presiona pa un intercambio sano”.

Na 2019, Prome Minister Wever-Croes a tuma nota cu vice-presidente di Venezuela a declara cu nan tabata dicidi pa habri e frontera, pero dia 10 di mei el a firma un decreto pa cera e frontera entre Aruba cu Venezuela. Esaki motiva na e situacion politico, economico y social cu e pais bisña tabata pasando na unda Aruba a registra un aumento di migrantenan cu na e momento ey, por tabatin efectonan riba orden publico

y seguridad di Aruba, cu ta den interes general.

Den luna di juli a circula un noticia ariba algun medio di comunicacion y ariba rednan social cu tabata segura cu e frontera entre Aruba y Venezuela lo habri back y vuelonan directo entre ambos nacion lo cuminsa.

Pues e noticia aki a causa conmocion y redactor di Bon Dia Aruba a tuma contacto cu Prome Minister Wever-Croes, cu tabata na Hulanda e tempo ey, ken a indica cu e noticia aki no ta corecto. “Nos tine cera ainda, pendiente di autoridadnan Venezolano. Nos ta trahando si riba dje”, Wever-Croes a segura.

Pa coregi e noticia aki Gobierno di Aruba a saca un comunicado di prensa oficial pa informa pueblo di Aruba cu frontera no ta habri.

“Ta informa cu Gobierno di Aruba ainda ta den negociacion cu autoridadnan Venezolano. Prome minister ta pidi tur ciudadano di nos pais, specialmente ciudadanonan Venezolano cu a haci di nos pais nan hogar, pa keda trankil y no kere noticianan cu no ta sali for di Gobierno di Aruba. Gobierno di Aruba ta sigui cu e esfuersonan pa yega na un apertura di frontera na forma responsabel y controla, pero pa esaki meseter di mas cooperacion di autoridadnan di Venezuela”, e comunicado a enfatisa.

Pues ainda no ta conoci si lo habri, of ki tempo lo por habri, e frontera entre Venezuela y Aruba, pero manera Sr. Célis a indica, e reapertura di e frontera ta presenta oportunidadnan grandi pa e area di comercio cu lo beneficia ambos nacion grandemente.

ELMAR preocupa cu desaroyo di generacion propio di coriente

Stabilidad financiero di grupo Utilities lo ta afecta si consumidornan cumpra menos

ELMAR ta preocupa cu aumento di tarifa pa particularmente negoshinan lo nifica cu nan lo busca nan propio forma di genera coriente, di fuentenan alternativo, y consecuentemente lo no cumpra (mes) hopi energia for di e compania. Esaki ta locual a sali afo di e analisis cu Econometrista, Herry Koolman a haci como parti di su conseho na Minister pa Asuntunan Economico mr. Geoffrey Wever (red. econometria ta usa teorlanan economico y pa medio di matematica y estadistica ta busca relacionnan y ta haci pronostico economico).

E documentonan entre e Minister y companianan di utilidad recientemente a bay Parlamento y a bira publico.

Manera ta conoci, Minister Wever no tabata mucho contento cu WEB y ELMAR no a busca forma innovativo pa genera coriente y a keda mara na importacion di combustible. Pero e Minister tabata preocupa tambe pa e efecto inflatorio di e aumento di tarifyanan. Ta basa riba e conseho di drs. Koolman cu e Minister a formula su condicionnan pa bay de acuerdo cu e aumento (red. condicionnan cu segun ELMAR no tin impacto legal pa e compania).

Segun drs. Koolman, inflacion na Aruba a aumenta cu 5.2 porciento na Mei y e aumento di prijs di awa y coriente lo tin un impacto

continuo riba e aumento di costo di bida. Un aceleracion desproporcional di inflacion por conduci na un spiraal di prijs di salario, ya cu hopi CAO ta keda adapta despues. Particularmente acuerdonan di huur ta inclui adaptacion segun inflacion. Un inflacion halto temporario como tal por bira un aumento estructural di prijs general, cu tur consecuencia negativo, drs. Koolman ta skirbi den su conseho.

Koolman ta bisa cu e inflacion cu Central Bureau di Estadistica ta publica ta e midi cu ta usa den contratonan pa aumenta prijs y salarionan periodicamente. Pa avarahe, di e gasto total di hogarnan na Aruba, 12 porciento ta bay na awa (cuater porciento) y coriente (ocho porciento). Pues adaptacion di tarifa di awa y coriente ta un aumento directo di inflacion.

E experto den calculacion economico, hunto cu Utilities NV, WEB y ELMAR a analisa varios escenario pa determina un aumento di tarifa pa cobra e aumento di gasto di combustible. Eynan a mira e interes y continuidad di e companianan, hustificacion di e diferenciacion di prijs pa e clientenan diverso y consecuencia di inflacion. Ningun ta sirbi interes general. Pasobra e tarifyanan di awa y coriente ta basa riba un asina yama subsidio crusa, unda esnan cu ta gasta menos ta paga menos. E sistema aki no ta yuda e operacion (financiero) di e companianan, cu tin

e necesidad pa elimina esaki gradualmente. E resultado lo ta cu e decision aki lo aumenta e inflacion segun e forma cu CBS ta midi e.

Koolman a ilustra cu hala e aumento di e tarifyanan na companianan en bes di hogarnan tambe lo afecta e poder di compra di ciudadanonan, ya cu e prijs di producto y servicio tambe lo aumenta. E efecto lo keda compensa di un parti pa medio di turistanan kendenan lo paga mas pa nan camber di hotel. Esaki lo no afecta e consumidor local. Koolman a enfatisa cu e motibo pakico ta enfoca riba e inflacion cu CBS ta calcula, ta pasobra esey ta crea e riesgo na aumento di prijs di contratonan mara na esaki.

Miedo pa generacion di coriente propio

ELMAR a indica durante e deliberacionnan cu aumento di tarifa lo por implica cu hogarnan, pero particularmente negoshinan cu ta paga un tarifa mas halto, lo busca forma pa spaar den consumo y busca nan mesun forma pa genera coriente. Particularmente si genera propio coriente pa medio di fuente alternativo ta mas barata cu cumpra di ELMAR. Si ELMAR mester bende menos coriente, e prijs fiho pa unidad ta bira mas halto. Ta a base di e punto di salida aki, ELMAR a argumenta cu e aumento di prijs pa negoshinan mester ta menos cu esun di hogarnan, ya cu ta companianan cu ta usa mas coriente por dicidi pa fuentenan alternativo di

energia.

Pero Minister pa Asuntunan Economico a urgi pa e aumento afecta e hogarnan lo menos posibel. Pues mester a haci un evaluacion entre e ahustacion inflatorio di e aumento di tarifyanan y e riesgo cu e negoshinan ta bay na gran escala pa fuentenan alternativo, cu ta haci cu a largo plazo coriente cu ELMAR ta bende lo bira mas caro ainda.

E scope pa “menos” inflacion

A presenta diferente escenario y nan impacto riba inflacion, incluso locual finalmente a bira e decision, esta un aumento general di tur tarifa di 23.9 porciento cu tabata esun cu menos impacto inflatorio, esta di 2.7 punto porcentual.

Tabata drs. Koolman a conseha pa cambia e estructura di prijs di awa y coriente di forma temporario pa por transiciona e periodo di aumento di prijs extremo pa despues bolbe evalua e sistema di prijs pa atende cu e sistema di subsidio.

E posicion di salida di ELMAR sin embargo ta hopi precario pasobra ta negoshinan mester compensa e gas-

tonan di coriente di hogarnan. Un aumento di prijs lo trece cambio di consumo tanto cerca e ciudadano como compania. ELMAR a bisa di lo monitor e situacion pa interveni na momento apropiado, ya cu cambio di consumo y generacion di coriente propio di parti di negoshinan por tin un efecto pa e estabilidad financiero di e grupo di Utilities. Por hisa e suma fiho cu tur hende mester paga cu por cubri cierto riesgonan, pero no por anticipa con e consumidor ta bay reacciona.

Como tal, drs. Koolman a bisa cu solucionnan ta un estructura di tarifa mas balansa, esta diferenciacion den e suma fiho na e capacidad di coriente. Di e forma aki por cubri e gastonan fiho na un forma mas socialmente balansa. Tambe mester elimina e dependencia di combustible, y amplia e fuentenan di energia alternativo. “E crisis actual riba mercado di petroleo por nifica un aceptacion social pa energia di biento centralisa y mas barata. E tempo ta awor,” Koolman a bisa Minister Wever. “Tambe a bira tempo pa ELMAR modernisa su polisa general di distribucion.”

Insuficiente tempo pa comercio por absorbe aumento di prijs di awa y coriente

Camara di Comercio y Industria (KvK) ta vocifera cu no por hustifica e aumento drastico y imprevisto di prijs di awa y coriente y ta condena cu WEB y ELMAR atrobe a warda

te na ultimo momento (1 dia prome cu e implementacion) pa anuncia e ahustacion aki publicamente.

E aumento di e tarifanan di awa y coriente ta inespera y

ta wordo implementa na un momento inoportuno ya cu mundialmente e presion financiero ta hopi grandi caminda tin inflacion halto y ta premira cu e situacion aki no lo mehora por lo pronto.

Na final di juni ultimo, a anuncia e intencion pa ahusta e tarifanan di awa y coriente entrante 1 di juli 2022, pero den consulta cu Utilities Aruba y Gobierno a dicidi di para e aumento y a duna e impresion cu no lo ehecuta esaki por lo pronto, sigur no a corto plaso, locual tabata reconfortante ya cu e stakeholders, incluyendo KvK, a enfatisa na varios ocasion caba cu tanto comercio como Pueblo en general no por carga cu mas gasto. Pesey ta di lamenta cu sin previo aviso, toch a dicidi pa implementa e aumento entrante 1 di augustus 2022 sin duna tempo na comercio y tur hende pa por prepara debidamente pa e costo adicional aki.

Un bes mas comercio ta wordo confronta di un dia pa otro cu gastonan adicional fiho y imprevisto cu no por a wordo presupuesta di antemano. Alabes, no ta conoci a base di cual calculacionnan a opta necesario pa aplica un ahus-

tacion inmediato y asina halto (rond di 30%), ni tampoco pakico no a scoge pa introduci e aumento den fase, pa duna comercio debido tempo pa ahusta.

Tampoco a anuncia kico WEB y ELMAR mes a haci pa baha nan gastonan en bes di pone full e peso riba pueblo y comercio. KvK ta di opinion cu WEB y ELMAR tin cu demostra unda nan a corta den nan mesun gastonan.

KvK ta urgi WEB, ELMAR y principalmente Gobierno pa reevalua e situacion aki y ta enfatisa cu ta importante pa consulta cu stakeholders y expertonan prome cu introduci cualkier medida financiero ya cu tur costonan adicional no solamente ta hacie mas dificil pa nos economia por sigui recupera, pero tambe ta aumenta e peso social riba nos comunidad.

Señor Ady Thijsen a keda encarga como Minister Plenipotenciario y como Representante na Europa

Un di e metanan cu Prome Minister Evelyn Wever-Croes a propone desde cu el a cuminsa goberna nos pais na 2017, ta pa baha gasto di personal despues cu a constata e gasto halto den personal y salario bao di e Prome Minister anterior, señor Mike Eman. Esaki ta e caso tambe ainda y mas ainda den e situacion cu nos Pais ta den na unda cu mester baha gasto di personal y cumpli cu exigencianan di Hulanda.

Segun un comunicado di gobierno, un ehempel di esaki ta cu Gobierno di Aruba a baha gasto cu nombramento di señor Ady Thijsen recientemente como Minister Plenipotenciario Interino na Arubahuis. Señor Thijsen ta tambe e representante pa Aruba di Union Europeo na Brussels y ta Presidente di ExCo di OCTA. Señor Thijsen tin dos funcion na Europa y un salario y por bisa cu seguridad cu señor Thijsen ta eherce un trabao excelente den ambos funcion.

Ambos funcion ta resorta bao di Ministerio di Asuntonan

General di Prome Minister. Esaki ta haci cu e ministerio aki ta baha gasto no solamente di salario, pero tambe di hospedahe. Cu esaki tambe, Prome Minister no tin mester di gasta na biahe pa Hulanda frecuentemente. Señor Thijsen den su funcionnan ta representa Aruba den Gobierno di reino y ta studia tur documento y leyman cu tin di haber cu reino.

Prome Minister Wever-Croes a enfatisa cu e problema di gasto di personal a sali for di man bao di Gabinetenan Eman. Nan a tuma cantidad grandi di persona den servicio. Desde cu Gabinete Wever-Croes ta na mando, e gastonan di personal a baha so. Contrario na señor Eman, Prome Minister Evelyn Wever-Croes ta tuma gobernacion hopi na serio y ta traha na bienestar di nos pueblo cu cantidad minimo di personal pa asina tene gastonan di personal mas abao cu por.

Eman a traha cu 147 persona directo bao di su ministerio cu a costa nos pueblo 11.323.300 florin na salario. Mientras e gastonan di Min-

isterio di Asuntonan General 2017 pa 2021, Prome Minister Wever-Croes a traha cu 22 persona den su oficina, esaki ta 125 persona menos y 85% menos di loke Eman a traha cune. E 22 personanan aki a costa 2.738.300 florin na salario. Esaki ta 8.585.000 florin menos y 76 % menos di loke Mike Eman tabata gasta na salario.

Y pa e di dos periodo di Gobernacion, Prome Minister Wever-Croes a baha gastonan di personal mas ainda, trahando cu 21 persona, cu un total di 2.342.591 florin na salario. Esaki ta 8.980.709 florin menos y 79% menos di loke Mike Eman tabata gasta na salario.

Prome Minister Evelyn Wever-Croes: "Hunto, mi ofici-

na, mi ministerio, cu ta inclui ami, mi secretaria, mi conseheronan y tur cu ta traha mi den mi oficina, a logra baha gasto. E no ta facil. Tin hopi menos hende y e trabao mester wordo parti den menos hende cu ta haci e trabao hopi mas dificil. Pero mi ta hopi satisfecho cu e sosten cu mi ta haya di tur esnan cu ta traha pa mi oficina".

“Mi soño a bira realidad”:

Faritah Luidens ta presenta su obra di teatro ‘Amiganan pa Semper’

E ultimo deseo di e mama di Sofia tabata pa nan strooi su shinishi na e pais na unda e la nace. Hunto cu su 4 amiga, Sofia ta dicidi pa cumpli cu e deseo di su mama y ta sali di biahe rumbo pa Colombia. E biahe cu na prome instante ta muestra di bira uno placentero, no ta bay manera plania. E amiganan ta haya nan mes confronta cu diferente reto cu ta test nan amistad y tambe nan curashi.

E obra teatral aki titula “Amiganan pa Semper” ta un obra skirbi, produci y dirigi pa Faritah Luidens. Luidens no ta un personahe desconoci den mundo di arte y teatro na Aruba. Un cantante, comediante, actriz y escritora cu tin un trayectoria artistico desde cu e tabatin apenas 17 aña di edad.

Luidens a cuminsa cu canto y despues a drenta den e mundo di teatro. Hopi ta conoce Luidens como e personahe humoristico ‘Tica Basha Abao’, pero su soño tambe tabata pa cuminsa skirbi obranan di teatro. No solamente cu e meta pa promove teatro, pero tambe pa invita otro pa sigui nan soño y asina tambe aporta na arte y cultura na Aruba. Despues di 2 aña dedicando su mes na su soño, su prome obra ‘Amiganan pa

Semper’ ta cla pa presenta den luna di september.

Luidens a splica durante un conferencia di prensa cu el a skirbi e obra di teatro aki durante un aña largo. El a scoge e titulo ‘Amiganan pa Semper’ pasobra mi e ta pertenece na un grupo di amiga y esey a dun’e e idea. El a scoge Colombia pasobra e ta biaha pa Colombia constantemente y semper aki aya tin cierto cosnan cu el a pasa aden y a traves di e experiencianan aki el a haci un combinacion pa e obra.

Luidens mes ta dirigi y produci e obra aki, y como actriz e sa e importancia di un bon elenco. Un elenco cu tin alrededor di un aña practica y prepara e obra y desde comienso a dedica nan mes na e obra. E elenco ta consisti di Nilka Franka, Lilian Pieters, Amy Richards, Faridi Daou, Meredith Rafael, Edjean Semeleer, Israel Luidens y Jason Croes.

“Di mes mi no por a drumi sin pensa cu e cos ki mester bay door y mi a bisa mi kier crème de la crème. Mi a cuminsa busca esnan cu ami ta considera actornan fenomenal y esey ta e elenco cu nos tin. E ta un obra completamente diferente, e tin tur cos y p’esey mi ta bisa e ta algo completamente diferente y a

bira tempo pa apoya nos mesun hendenan y nos tin actornan fenomenal riba e isla aki”, el a agrega.

Edjean Semeleer, integrante di e elenco di ‘Amiganan pa Semper’ ta conta cu e experiencia ta algo completamente diferente p’e y cu a sak’e full for di su zona di comfort. “E prome biahnan e tabata hopi incomodo pa por a haci esaki, pero pa loke mi a mira e protagonistanan desplega, mi ta haya ta fantastico. E obra mes, e forma cu el a wordo hinca den otro y bo por relaciona cu hopi di e situacionnan”, el a expresa.

El a remarca cu ‘Amiganan pa Semper’ ta un obra teatral den cual humor ta bay resalta hopi y cu e publico lo experiencia hopi tipo di emocion, manera rabia, nostalgia, pero humor ta loke mas ta bay prevalece durante obra aki.

Semeleer a sigui conta cu durante e ratonan cu e no mester actua, por a sinta disfruta di e actuacion fantastico di a protagonistanan. “Pa mi como artista ta un honor di forma parti di e obra aki. Mi ta hopi sigur cu e publico lo disfruta y sinti hopi inspira y motiva pa mira cu tin iniciativa cu ta wordo tuma pa stimula mas teatro riba nos isla”, el a subraya.

Rayenne Hernandez, directora UNOCA, tambe tabata presente durante e conferencia di prensa y den nomber di UNOCA el a expresa cu nan ta orguyoso di por presenta y forma parti di un proyecto asina.

Hernandez a enfatisa cu hopi biaha presentacionnan, obranan teatral di afo ta haya hopi sosten di comunidad y como UNOCA nan ta kere cu e obranan local, e artistanan di Aruba tambe tin talento pa presenta na caliber internacional y esaki ta un di motibonan pakico UNOCA a dicidi di sostene financieramente e proyecto di Faritah Luidens.

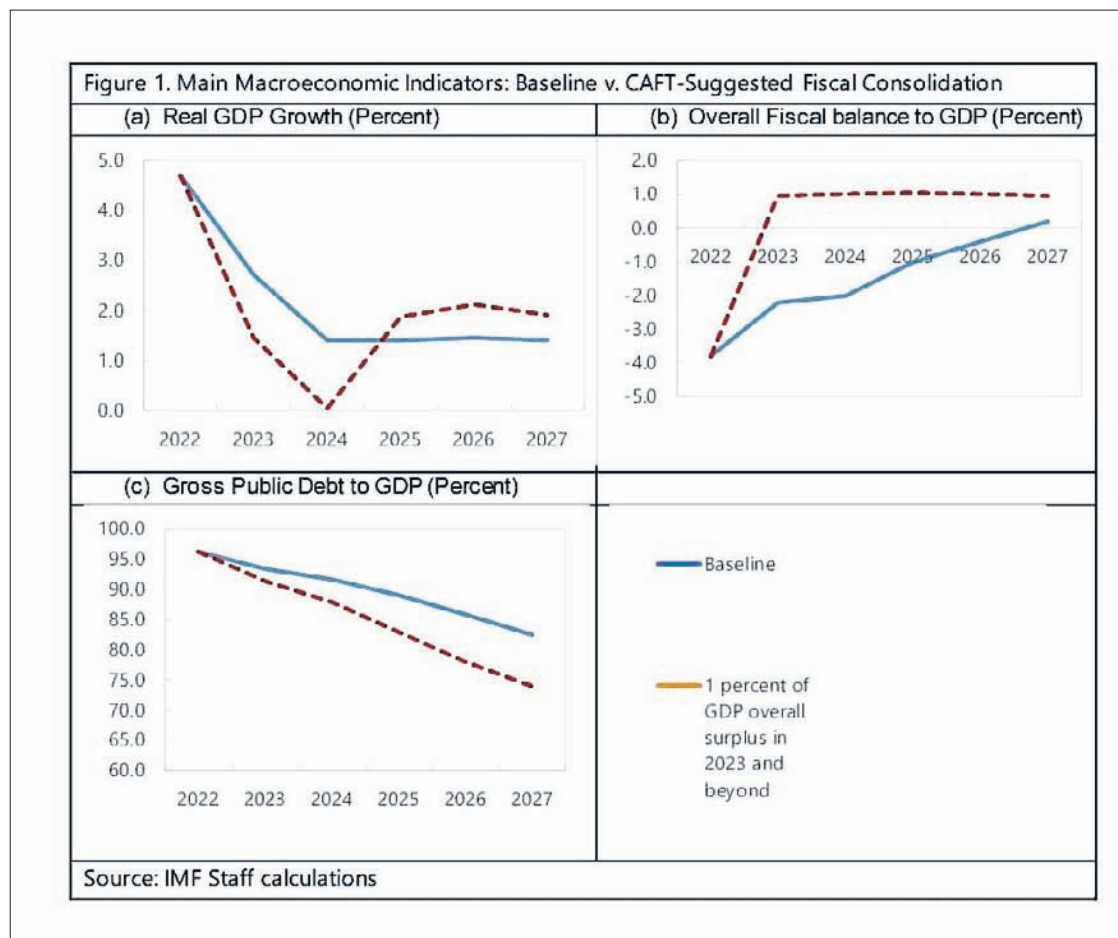

“UNOCA ta kere den desaroyo di arte, desaroyo di cultura y e parti di teatro nos a wak cu e ultimo añanan no ta ricibiendo e balor cu e merece, no ta ricibiendo e sosten di comercio y nos si ta dicidi, hunto cu algun otro partner, pa sostene e proyecto aki pa nos wak nos mesun talentonan local tambe riba escenario pa comunidad di Aruba disfruta”, el a finalisa.

E obra ‘Amiganan pa Semper’ lo tuma luga diana 2 y 3 di september den Cas di Cultura.

Minister Maduro di Finanzas ta informa:

IMF ta conseha pa Aruba tene cautela cu e caminda cu ta scoje pa yega na surplus den presupuesto *Ta mira año 2027 y no año 2023 como año pa surplus*

Na juni 2022 Minister di Finanzas a acerca IMF pa asina nan por tira un bista y duna un conseho di e caminda cu Aruba mester sigui cana pa por yega na un Finanzas publico manehabel y sostenibel.

E opinion aki di IMF ta necesario pa asina por trece un balansa den e debate riba e normanan financiero cu Aruba mester tene su mes na dje den cuadro di e supervision financiero cu ta existi den Reino Hulandes.

Den e negosacion cu Hulanda riba e supervision financiero di Aruba den e bachi di un Ley di Reino RAFT, Aruba kier yega na otro normanan financiero cu ta tene miho cuenta cu e efecto cu e pandemia tin riba Aruba su economia y Finanzas. Aruba

ta recuperando grandemente danki na entrada di turismo, pero den e esfuerzo pa recuperacion financiero mester scoje pa normanan cu no ta bay percura pa kibra e economia di nos Pais. Riba e ultimo aki IMF a duna su opinion.

Surplus di 1% den año 2023

Na e momentonan aki Aruba conoce supervision financiero conforme e Ley di LAFT y e Protocol di año 2018 cu a keda prolonga te cu fin di año 2023. Den e protocol tin normanan financiero fiha cu a wordo traha na momento cu ainda Aruba no a conoce e efectonan economico y financiero cu e pandemia a trece cune. Te cu fin di año 2019, Aruba a cumpli cabalmente cu e normanan aplicabel. Sinembargo e pandemia a cambia e escenario financiero di Aruba grandemente na unda nos a bay di un surplus chikito di 4 miyon na fin di año 2019, pa un deficit di 764 miyon na año 2020, sigui pa 534 miyon na año 2021 y awo na 226 miyon den año 2022. Segun e protocol di año 2018, den año 2023 Aruba lo mester conta cu un surplus di 1% di nos GDP equivalente na un 60 miyon florin di surplus. Pa por logra cumpli cu e norma aki, Gobierno lo mester per-

cura pa corta 286 miyon florin den presupuesto di Aruba of un combinacion di creacion mas entrada y reduci gasto pa asina por yega na e surplus di 60 miyon florin den año 2023.

IMF ta mira año 2027 como año pa surplus

Mirando e impacto cu e reduccion substancial di gasto y creacion di entrada via belasting tin pa e recuperacion di Aruba su economia, Minister di Finanzas a pidi IMF un conseho riba e consecuencia si Aruba keda aplica e norma financiero di 1% di surplus desde año 2023. Segun IMF, Aruba lo bay conoce un recuperacion economico grandi den termino cortico y ta premira cu e recuperacion aki lo por traduci su mes den un surplus chikito den año 2027. Den e escenario pa Aruba yega na año 2023 caba na un surplus di 1%, esaki por trece cune cu e recuperacion den año 2023 por bira menos y te hasta por stop den año 2024. Pues IMF ta conseha pa tene cuatela pa no stroba e crecimiento economico of stroba e recuperacion di Aruba cu un norma financiero mucho ambicioso, ya cu esaki por haci daño na Aruba su economia.

Minister Dangui Oduber

Programanan di actividad fisico pa nos adultonan mayor ta sumamente importante

Dialuna Fundacion Movimiento ta Bida a anuncia cu despues di 5 año nan lo ta organisando e segundo edicion di Caribbean Aging Congress. E meta di esaki ta pa duna e informacion necesario na tur e profesionalnan na Aruba riba locual ta e aspecto fisico y general ora ta trata cu adulto mayor. Como e minister encarga cu Salud Publico Minister Oduber sigur ta sostene e tipo di iniciativanan caminda ta promove actividadnan fisico den tur edad di nos poblacion.

E programa di Fundacion Movimiento ta Bida sigur ta cuadra cu e maneho cu Minister Oduber ta hiba. E mandatario su maneho ta basa

grandemente riba prevencion. Tin un plan nacional di prevencion di malesanan NCD's, un parti importante di e plan aki ta e parti di conscientisacion di nos comunidad. E programa ta dirigi riba e adulto mayor, pa mehora nan estilo di bida incorporan-

do actividad fisico como parti di nan rutina diario.

Minister Oduber ta di opinion cu na Aruba keda sin haci nada ya no ta un opcion mas. Aruba su poblacion ta pasando den un "vergrijzing" cu tur e consecuencianan cu esa-

ki tin riba nos seguro medico general. Pesey e programa aki no ta solamente importante pero tambe necesario pa nos profesionalnan por ta mas consciente di nan trabou na momento cu nos adultonan mayor ta den nan man.

Minister Oduber ta gradici Fundacion Movimiento di Bida pa tur e trabounan cu nan ta haci pa nos adultonan mayor. Tambe e mandatario ta desea nan tur clase di exito cu e Caribbean Aging Congress cu ta tumando luga 1 y 2 di october proximo.

Impacto di subida di costo riba demanda di turismo pa Aruba

Aruba semper a posiciona su mes como un destinacion cu prijsnan mas eleva y a sa di ta exitoso den esaki. A.T.A. lo sigui haci esfuerso pa dirigi su mes riba e tipo di turista cu ta dispuesto pa paga e prijs aki y ta mira e balor di esaki, sin embargo ta considera cu mester investiga ki impacto un incremento den prijs lo tin riba e demanda pa un vacacion pa Aruba y keda monitorear esaki.

Tambe ta señala, un biaha mas, cu ta importante pa enfoca riba brinda nivel di “value for money” adecua! Esaki a bin ta bou di presion.

Pa algun luna caba A.T.A. a bin ta den dialogo cu mas di 75 diferente socio; organisacionnan, departamento di gobierno y gremionan na Aruba y den reino, enfocando riba diferente tema cu tin impacto entre otro riba turismo y e costo di vacacion, algo cu lo afecta un biaha mas directamente e forma di biba di cada un aki na Aruba.

Mirando e importancia di turismo y recuperacion economico como destino y nacion, A.T.A. a enfoca riba 3 estudio, pa asina por duna conseho riba decisionnan, basa riba investigacionnan y pues “facts”.

Den luna di April, a completa e ‘Price Competitive Study’, unda ta compara e costo di un vacacion pa un bishitante di Estados Unidos – siendo e mercado primario – pa Aruba cu e costo di un vacacion pa otro destinacion den Caribe.

E meta di e estudio aki tawata pa wak pa diferente tipo di vacacion manera biahe cu famia, honeymoon y biahe di pareha cuanto e prijs pa persona lo sali pa e diferente elementonan di cada tipo di vacacion, por ehempel buelo, acomodacion, cuminda y bebida, transporte y actividadnan.

Den caso di un biahe cu famia, e prijs pa persona pa Aruba ta significantemente mas halto den comparacion cu e otro islanan, den caso di un biahe pa honeymoon, e prijs pa persona pa Aruba tambe ta mas halto den comparacion cu e otro islanan y den caso di un vacacion di pareha “empty nesters” e prijs pa persona pa Aruba ta na di 2 luga mas halto despues di U.S. Virgin Islands. Esaki no ta un sorpresa, pero ta bon pa re-establece con ya caba Aruba ta carga un prijs mas eleva y pues mester actua cu hopi prudencia pa loke ta trata decisionnan cu lo hisa e costo di un vacacion y mester evalua con esaki lo por impacta demanda pa Aruba.

Ta haciendo e estudio riba e impacto di demanda door di aumento di gasto di un vacacion. Pa esaki a contrata University of Central Florida (UCF). E prome parti di e estudio aki a enfoca riba e efectividad di mercadeo, pa asina establece con efectivo e strategia di A.T.A. ta y entre otro ki fondo mester dispone di dje como A.T.A. pa por sigui pusha resultadonan desea. Actualmente ta trahando riba e di dos parti di e estudio, unda ta enfoca riba e impacto cu entre otro un incremento

den impuesto (introduccion di BTW) lo tin riba e demanda di turismo y riba e cantidad di anochi cu un turista ta keda Aruba. Esaki banda di otro elementonan incluyendo tasa di inflacion halto. Basa riba diferente escenario lo wak e impacto riba demanda. Ta spera di por tin e resultadonan di e parti aki di e estudio cla entre fin di augustus y comienzo di september. E tercer parti di e estudio

lo enfoca riba e percepcion di bishitantenan riba un incremento potencial di costo. Cu e resultadonan aki lo purba saca afo ki tipo di mensahe lo mester uza pa comunica cu bishitantenan na momento cu tin un incremento di impuesto of otro aspectonan cu lo impacta e costo di un vacacion pa Aruba. Pa e estudio aki ta encuestando bishitantenan.

Mirando e situacion economico mundial, mester tene na cuenta, no solamente e aspectonan local cu ta impacta costo di un vacacion pa Aruba, pero tambe inflacion proyecta den diferente di nos mercadonan. Nos mercado principal, Estados Unidos ta mirando un inflacion hopi halto na e momento aki bayendo for di 8.6% na mei te cu 9.1% na juni, un record den

41 año. Pa 2023 ta spera un inflacion di entre 2 y 2.5%. Pero tin hopi incertidumbre y preocupacion ta sigui pa un posibel recesion den 2023 y 2024.

Manera menciona, A.T.A. lo sigui enfoca riba e estudionan menciona y lo comparti e resultadonan cu gobierno y otro socionan clave pa asina decisionnan por wordo tuma cu e prudencia necesario y mas cu claro tur dirigi riba logra metanan pa 2023 y despues y sigui stimula e trayecto di recuperacion fuerte. Mirando e importancia di turismo y con esaki por impacta hopi otro aspecto, incluso entrada proyecta pa gobierno / pais Aruba, como tambe calidad di bida di tur habitante, prudencia ta necesario.

Psicologo infantil ta comparti conseho – pa mayor y muchanan

(HelloMagazine) – Vakantie ta yegando na su final y un año escolar nobo ta cuminsando, loke por nifica preocupacion pa tanto

“Un cos cu por yuda ta si bo tin un mucha cu ta preocupa, ta pa papia di e ‘dia importante’ detayadamente, di forma adelanta. Ora boso ta hunto, e anochi prome – mientras ta cushina of come – por yuda si ta visualisa exactamente kico ta bay pasa e siguiente mainta ora nan ta bayendo scol. Papia riba con tur hende ta bay ta emociona y nervioso, y con nervio ta

sinti den bo curpa (curason ta bati lihe, man ta soda, rosea ta bira lihe, etc.).”

“Un di e tecnicanan basico di ‘mindfulness’ – atencion pleno – ta djis pa reconoce e emocionnan den nos mes, y describi esakinan na otronan, y reconoce cu otro hende ta bay ta sintiendo e mesun emocionnan tambe – y esey ta definitivamente algo util pa haci cu mucha tambe.”

Si un mucha ta demasiado preocupa pa bay back scol,

kico un mayor mester haci? “No bay den panico! E tipo di cos aki ta algo hopi normal y casi tur mucha tin un momento, na algun punto di su bida, cu nan ta anuncia cu nan no kier bay scol back. Scolnan ta bon custuma pa deal cu esaki, pues definitivamente ta bon pa laga e maestro sa con e mucha ta sinti. Mucha hopi biaha ta hopi miho pa coach otro pa bay back scol compara cu mayornan, ya cu nan ta miho pa comprende con e ta sinti.”

Psicologo clinico ta comparti 4 tip pa studiantenan exitoso

(Children'sHealth) – Inicio di un año escolar nobo por ta emocionante pero tambe por laga e muchanan sinti ansha, specialmente si año pasa tabata un difícil of si nan ta cuminsando un scol nobo. Mientras algun tip di back-to-school ta bon conoci (manera drumi suficiente y come un desayuno saludable) tin otro formanan pa prepara.

Nicholas J. Westers, Psy.D., ABPP, un psicologo clinico na Children's Health y profesor asocia na UT Southwestern ta comparti cinco manera pa yuda bo yiu cuminsa e año escolar di bon manera.

1. Un perspectiva nobo

Muchanan por cambia hopi durante vakantie. Maske e vakantie ta apenas algun siman largo, hopi por pasa durante e tempo ey (experiencianan nobo, amigonan nobo, of crecemento). Mientras bolbe scol por ta un tentacion pa muchanan actua mesun manera cu antes, nan por haci un esfuerzo pa asumi un actitud nobo.

Por ehempel:

Si nan tabata trata otro malo, nan por haci esfuerzo pa comporta nan mes mas amigable. Si nan tabata keha, nan por cuminsa busca loka ta bon den hende y situacionnan. Si nan a tuma mal decision año pasa, un año escolar nobo ta un oportunidad pa miho decisionnan.

Curasha bo yiu cu awo ta e momento pa cuminsa habitonan nobo y ta intencional pa cu su comportamiento.

2. Curasha muchanan pa ta nan mes na scol

Curasha bo yiu pa identifica nan balornan, y pa cumpli cu nan – manera trata otro nan bon, traha duro na scol, y evita alcohol y droga. No tur hende ta bay gusta nan, y esey ta okay. Nan no meste purba di impresiona amigo y compañeronan di klas, specialmente si esey ta viola nan propio balornan.

Splica bo yiu cu ora nan

cumpli cu nan balornan, otronan usualmente ta respeta esey, hasta si nan no ta mustr'e.

3. Siña bo yiu e balor di amistadnan significativo

E prome simannan back na scol por parce un tiki caotico socialmente, cu tur hende purbando di haya nan lugar den e 'trapi social di popularidad'. Sinembargo, tin apenas un par di amigo cercano por ta hopi mas importante y enriquecedor cu tin un cantidad grandi di amigo superficial.

4. Identifica e fortalezanan di bo yiu na scol

Cuminsa e año escolar nobo cu e meta di haya bon punto ta admirable y sigur importante, pues curasha bo yiu pa bay p'e. Pero traha duro na scol, y siña con pa recupera di retonan por ta mesun importante pa logra metanan. Si bo yiu ta sinti yen di stress pa su lesnan, programa un tempo ocasional di 10 pa 15 minuut di preocupacion pa permiti nan pa ta ansioso. Despues curasha nan pa 'move on' pa esaki no controla e resto di nan siman ni impacta nan puntonan negativamente.

Si despues di haci nan best, bo yiu no ta haya 9 cu 10, identifica kico mas nan ta bon den dje, y hacie. Un estudiante cu puntonan mas abao cu ademas ta haci trabao boluntario den comunidad ta muestra bon balansa, por ehemplo.

5. Duna bo yiu sosten emocional

Esaki por zona cliché, of por ta sorprendente, pero hopi di e muchanan mas exitoso y emocionalmente saludable na scol sa cu nan mayornan por ta nan miho aliado. Bo por pensa cu esey ta obvio, pero laga bo yiu sa cu nan por conta bo tur cos. Curasha nan pa comparti un cos bon cu a pasa na scol cada dia. Yuda nan ta exitoso door di continua como nan cheerleader di mas grandi.

Aruba ta recuperando su turismo

E consecucionan di e Pandemia pa pais Aruba y e mundo ta conoci pa un y tur. Hopi economia a haya un golpi duro y inespera cu a kraak paisnan grandi y chikito. Aruba siendo un isla chikito cu un pilar economico so, a sa di dal pasonan grandi y serio den direccion di un recuperacion total di su turismo.

Nos por a wak caba cu tin varios luna den cual a kibra record di turista y entradan den e lunanan di April cu 108%, Mei cu 103% y tambe Juni cu 103% di recuperacion compara cu 2019. July 2022 ta marca otro luna cu a logra kibra e record di Juli 2019, señalando cu Aruba su turismo ta acelerando su recuperacion.

Dialuna durante su conferencia di prensa minister Dangui Oduber a pasa riba diferente indicadornan cu ta indica e

performance di e cruceronan y hotelnan ta recuperando constantemente. Esakinan ta indica alabes cu e strategia cu a bin ta usa for di cuminsamento di aña ta dunando su fruta. Pa loke ta e recuperacion di barconan crucero, e cifranan ta poco mas abao. Esaki ta debi cu e protocolnan pa barconan crucero ta hopi mas halto y exigente y a causa tardansa pa wak mas barco cuminsa yega na Aruba. E recuperacion proyecta na final di 2022 ta alrededor di 65%. Kiermeen, akinan ainda tin hopi oportunidad pa crecimiento y ta proyecta un bon recuperacion pa e siguiente 6 lunanan y 2023.

Segun IMF Aruba ta haciendo un trabao excelente y a declara den su rapport cu "Aruba a move rapidamente for di e Pandemia". Actualmente Aruba a recupera 92% di su turismo. E porcentahe aki ta pa via cu e variante Omicron a afecta nos pais den Januari

y Februari specialmente, sino esaki por tabata mas halto ainda. E resultadonan pues ta muestra hopi positivo y ta proyecta avance nan significativo den e sector turistico.

For di akinan mi kier a felicita minister Dangui Oduber y su ekipo cu a traha hopi duro pa lanta nos turismo bek. Ademá mi kier a felicita ATA y

tur esunnan cu ta traha den e sector turistico pa nan trabao duro y yen di enfoke. Hunto nos tur por yuda nos pais recupera for di e retonan economico cu nos tin nos dilanti.

Parlamentario Hendrik Tevreden (MEP):

A cancela introduccion di 'eigen bijdrage'

For di hopi tempo ta buscando un otro alternativa pa evita introduccion di eigen bijdrage. Y e anuncio dialuna di parti di gobierno y Minister Dangui Oduber a confirma cu si a haya un otro alternativa. Eigen bijdrage ta un contribucion pa yuda e fondo di AZV, kiermen cu e persona cu bishita dokter lo mester paga algo momento e bay pa un cita. Esaki lo por resulta cu hende no ta bishita dokter zomaar y ta yuda na reduci e bishitanan y acumula fondo. Den Parlamento nos no tabata di acuerdo cu e direccion aki y ta pensa cu tin otro alternativa y netamente esaki minister Dangui a presenta dialuna na pueblo.

Manera tur hende sa CAFT a recomenda e eigen bijdrage pa por yega na e recorte di 60 miyon pa AZV, pero mes momento CAFT no tabata habri pa introduccion di un ayudo social pa esun nan cu no por paga e eigen bijdrage. Esaki ta nifica cu si un hende no tin placa pa e paga pa su cita, kisas e no lo haya cita of no lo scoge pa bay su afspraak cu dokter. Nos ta pensa cu no por haci esaki cu esun nan margina den nos comunidad cu kisas no lo por paga extra. Pesey parlamento a boga pa bini cu un alternativa.

AZV lo a spaar cobrando eigen bijdrage alrededor di 3-4 miyon florin. Cual minister Oduber a busca e suma aki otro caminda pa por cubri'e. A haci estudionan

y a conduci hopi sesion y reunionnan pa logra yega na un alternativa y a conclui cu lo bay modernisa e ley di seguro medico cu lo yuda baha gasto na un manera sostenibel. Tambe den e rapport di profesor Hubben, tin recomendacionnan haci unda por reduci e gastonan actual. Algun ehempelnan practico ta pa unifica e dos hospitalnan, haci compras di remedinan hunto cu lo por reduci e prijs ora di negocia mirando cu ta papia di un cantidad mas grandi. Mas ainda, tin un pensamento cu tin di uni cu otro islanan den cumpra remedi cu lo tin un efecto di spaar mas hopi.

Otro cambio cu lo bini ta e landsbesluit verpakte geneesmiddelen y lo tin di bay stimula competencia y percura pa cu apothekprijs lo tin e base (richtlijn centraal) pa calcula e prijs di remedinan importa pa evita sumanan extravagante riba remedi. Hunto cu tur esakinan lo tin di facilita y acelera e proceso di registracion di remedi tambe. Cu e cambionan aki lo por spaar entre 7-8 miyon pa aña, cual ta 2 biaha mas cu eigen bijdrage plus acelera servicio.

Nos ta contento cu minister Dangui y su ekipo ta sigui busca solucion na bienestar di AZV y nos comunidad. Pasobra nos sa cu e fondo tin di wordo salvaguardia pero cu nos mester percura pa nos ciudadanonan cu tin e dificil tambe por permanece cu e calidad di cuido y pagabel.

Parlamentario Shailiny Tromp-Lee (MEP):

Recuperacion fuerte di Aruba sigur ta brinda perspectivanan positivo

Minister di Turismo y Salud Publico sr. Dangui

Oduber a trata den un rueda di prensa e cifranan di turismo pa lora ta trata 2022 te cu awor. Alabes Parlamento ta haya mensualmente e cifranan for di AHATA. E cifranan di e ultimo lunanan ta muestra un recuperacion fuerte. Ta trata cifranan cu ta duna un bista cuanto bishitante a yega nos isla den un luna. Pa lora ta trata nos aeropuerto nos ta mira crecimiento consecutivo di cantidad di bishitante compara cu e aña record di 2019. Cifranan di 2022 ta superando e cifranan di aña 2019, esaki sigur pa e tres lunanan tras di lora.

Cifranan ta muestra cu den luna di april di e aña aki a registra un recuperacion di nos turismo di 108% porciento compara cu april 2019. Tam-

be ambos luna di mei y juni a registra e mesun cifra di recuperacion cu ta 103% porciento compara cu respectivo lunanan den aña 2019. Pa e prome 6 lunanan di aña 2022 Aruba a ricibi 528.325 turista. Esaki ta un recuperacion di 92%! Aruba ta e di dos pais den mundo den recuperacion di turismo. Sigur esaki ta demostra cu nos ta un pais hopi resiliente Un desaroyo sumamente positivo y hopi necesario pa nos pais y cu sigur ta brinda nos perspectivanan hopi positivo. Asina nos pais por bin mas lihe bek riba pia, nos lo ta menos dependiente di Hulanda, e caha di Gobierno por recupera y yuda absorba consecuencia y desaroyonan mundial negativo cu ta tumando luga manera impacto di e guerra na Europa, prijs di crudo y scarsedad di producto.

Na mes momento e recuperacion aki tin un efecto positivo riba nos economia, caminda negoshinan tambe ta bay recupera mas lihe, cuponan di trabou ta keda crea y ta brinda oportunidadnan na nos famianan den necesidad.

Mi ta convenci cu e recuperacion aki ta fruta di un bon maneho door di tur stakeholders den turismo, ta resultado di e decisionnan tuma cu curashi door di Gobierno y henter e crisis team y mas cu tur cos ta demostra e trabounan duro y excelente cu diariamente nos hendenan ta haci den e sector turistico. Turismo ta keda e driver di nos economia. Nos mester keda brinda nos bishitantenan e servicio di calidad y e experiencia di seguridad cu nos isla ta conoci pe. Esaki ta trahando hunto so nos por sigui logr'e.

ber, pa prome biaha Boneiro a logra haya dos hoben den e programa aki.

Di acuerdo cu comandante

interino di seccion di Bombero, Gerald Baptiste, huma a cuminsa sali for di e concession di bebida den bisindario di sala di salida. E huma a trigger e sistema di alarma, y mesora a evacua e edificio di terminal na e punto palabra na e parti pafo.

Rond di 1:18 PM. A reset e panel di alarma despues cu no tabatin huma mas y Departamento di Rescate y Bombero a cambia e emer-

gencia pa codigo berde, ora cu a stabilisa e situacion.

Pa aproximadamente 1:27PM, tur hende tabata bek den edificio di terminal di forma sigur y a reanuda operacion normal atrobe. Den nomber di Gerencia di Princess Juliana International Airport, nos ta pidi disculpa pa cualkier ncinviniencia e sucedido por a causa.

Prome Minister Gilmar Pisas : No tin motibo pa sigui bisa cu Corsou ta den un crisis di Covid

Prome Minister Gilmar Pisas den un conferencia di prensa a elabora riba e situacion di COVID na Corsou. Despues di un temporada basta largo relaciona cu COVID awe tey back pa mira con lo sigui padilanti. Segun prome minister Pisas COVID a haci Corsou y na mundo completo hopi daño. COVID a trece hopi amargura, dolor, kiebro den famia y perdida den trabao y esun mas doloroso ta caminda personanan ta fayece pa motibo di COVID.

Banda di tur esaki e prome mandatario ta kere cu awe Corsou ta bini back hopi fuerte, aunke cu ainda e Covid no a pasa completo pero lo bay atende cu e Covid y e crisis den un otro manera. Si mester compara e situacion actual compara cu 6-7 luna atras por bisa cu no tin motibo pa sigui bisa cu Corsou ta den un crisis. Awo departamento di salubridad publico na Corsou ta cuminsa haya e responsabilidad pa atende cu e crisis for di ayera 4 di au-

gustus 2022. Esaki ta significa cu lo ta e ultimo conferencia di prensa tambe cu lo ta den e forma oficial como team di di Covid di Corsou.

Sinembargo mester keda atento debi cu e Covid no a desaparece y algun pais a muestra un biaha mas cu tin cifranan cu ta subiendo atrobe. Na Corsou ta e mes un situacion pero e cifranan ta fluctua y esaki ta pone cu nos como ciudadano mester asumi cu Covid no ta bay for di mundo.

Mas hogar na Hulanda lo enfrenta problema financiero si prijsnan keda aumenta

(NLTimes) - E problemanan andando pa cumpli cu pagonan lo aumenta hopi mas si e inflacion permanece asina halto, Budget Institute Nibud y asociacion pa alivio di debe NVVK ta premira.

Actualmente, e ta mas tanto personanan cu ya caba tabatin problemanan financiero agudo, sinembargo mas y mas persona den e clase medio tambe ta teniendo problemanan financiero cada biha mas. E grupo aki ta den e siguiente clase di problema y

posiblemente debe.

“Viviendanan cu ya caba a haci cortenan den nan presupuesto y en realidad no por cubri nan gastonan mas ta laga cu man na cabes,” segun vocero di Nibud. “Tambe nos ta tende situacionnan similar di personanan cu ta yama nos.” Un den cada 3 vivienda awo no por cubri gastonan, e instituto a establece luna pasa. “Nunca antes no a mira un situacion asina.”

Riba diahuebs, Statistics Netherlands a reporta cu in-

flacion a subi na mas di 10 por ciento pa prome biaha desde aña 1975. E motibonan principal ta e prijs di energia cu ta aumentando drastica-

mente y e prijs mas halto di huur. “E aumento ta awo realmente tur caminda, cual ta haci dificil pa corta e gastonan,” Nibud a bisa. “Huur

ta un suma cu ta stipula, bo no por haci nada pa cambia esaki. E ta haci e situacion hopi mas precario pa motibo cu awo bo mester cubri e costonan extra aki.”

NVVK tambe ta hopi preocupado cu e prijs di energia. “Nos ta tende cu hopi persona ta pone e cantidad di energia pa e luna demasiado abao, nan ta cushina riba stoof, pero despues fin di luna mester come banana,” Geert van Dijk, director di e grupo di interes pa conseheronan di debe a expresa.

Residentenan di Hulanda no kier acepta solicitante di asilo

(NLTimes) - Dos tercer parti di residentenan di Hulanda kier pa e pais temporariamente stop di acepta solicitante di asilo nobo, EenVandaag a haya den un encuesta di su panel di opinion.

Mas o menos 78 por ciento di nan ta preocupa pa cu e crisis actual di recepcion y algun tambe di e condicionnan degradante cu e centro di registracion na Ter Apel ta aden, y otronan pa motibo cu nan ta kere cu e refugiadonan ta causando cu e mercado di vivienda ta extra preta, segun e programa.

Un mayoria di 61 por ciento ta pensa cu en principio, Hulanda mester acepta solici-

tante di asilo cu ta core for di guerra. E figura aki tin hopi añanan stabil. Sinembargo tin tiki sosten pa e gobierno su plan di aregla e crisis actual den shelternan di asilo. E unico plan cu por conta riba

sosten ta un paro temporario den acepta hende. Secretario di Estado Eric van der Burg di asilo a señala cu esaki probablemente ta den conflicto cu e Aliens Act. Sinembargo, 69 por ciento di e residentenan

Hulandes ta pensa cu esaki lo ta un bon solucion pa e crisis.

Otro plannan di Gabinete tambe ta conta cu menos sosten. Solamente 37 por ciento di e residentenan ta na favor

di gobierno obliga municipalidadnan acepta solicitante di asilo. Awo, algun no ta acepta persona en general of solamente ta ofrece shelter pa refugiadonan di Ucrania. 55 por ciento ta den contra di e obligacion aki.

Opinionnan tambe ta dividi tocante un di dos centro di registracion na Noordoostpolder, cu 38 por ciento persona pensando cu e ta necesario, y 48 persona contra di esaki. Practicamente no tin ningun sosten pa duna refugiadonan prioridad temporario pa vivienda social, mirando cu 80 por ciento di e residentenan ta den contra di esaki.

Schiphol tin problema den cumplimiento cu regla di 4 ora

(NLTimes) - E extra inspectornan na Schiphol cu a ser contrata pa controla cu e regla di “no yega prome cu 4 ora” antes di salida ser cumpli ta extremadamente druk. Schiphol a pidi pasaheronan pa no yega prome cu nan biahe pa asina yuda maneha e aglomeracion di hende. Sinembargo e pasaheronan tog ta yega mas trempan.

“E ta yuda tremendamente si tur hende por mantene nan mes na e regla,” un vocero a bisa. “Te ainda bo ta ripara, specialmente anochi y mainta trempan, cu hendenan ta yega demasiado trempan. Mi ta imagina cu bo kier ta sigur

cu bo lo logra bo biahe ora bo ta mira e rijnan largo riba noticia, esaki ta comprendibel, pero nos ta sigui enfatisa pa no bini demasiado trempan.”

Na fin di juli, Schiphol a intensifica e chequeo di ticketnan. E aeropuerto a contrata personanan externo pa controla ki ora e pasaheronan su biahe ta sali. Personanan cu a yega prome cu e regla di 4 ora ta ser pidi pa warda na Schiphol Plaza.

Schiphol no por bisa pa con hopi tempo e regla di 4 ora lo keda en vigor. “Nos ta continuamente den evaluacion di e situacion,” un vocero a aplica. “Nos medidanan ta muestra cu actualmente, e ta

yuda hopi si e personanan mantene nan mes dentro di e

4 ora aki. Si nos mira cu mes- ter di un tempo diferente,

nos lo implementa e cambio aki.”

Trump-aligned challengers ousting GOP legislative incumbents

sidered the legislation unconstitutional, because it lacked an exception for youths already undergoing such treatments.

Vos, who has served as Wisconsin Assembly speaker since 2013, has taken sharp criticism for not pursuing a resolution decertifying Democrat Joe Biden's victory in the state. Trump endorsed his Republican challenger, Adam Steen, saying that "Vos refused to do anything to right the wrongs that were done" in the 2020 election.

Under pressure from Trump, Vos hired former state Supreme Court Justice Michael Gableman last year to investigate the election. Gableman said decertifying the election was "a practical impossibility."

Steen said he decided to challenge Vos because he failed to pass legislation outlawing absentee ballot drop boxes ahead of the 2020 election and hasn't pushed for tougher consequences for voter fraud, among other things.

"Conservatism as a whole has been lethargic," Steen said. "We lack vision, and I think that vision is coming back."

Vos said Steen is running on hyperbole. He said Gov. Tony Evers, a Democrat, poses the real obstacle to conservatives. Evers, for example, vetoed Republican bills that would have made it harder to vote absentee.

"If we don't get a Republican governor, (Steen) would have less success than I had," Vos said.

Vos is one of nine GOP Wisconsin lawmakers facing primaries. Though the challengers face an uphill fight, they could push the already conservative Legislature even further right if they notch a few victories. That would mark a significant shift in a state that plays a crucial role in national elections.

Twenty-seven states had held legislative primaries or conventions before Tuesday. In those, at least 110 Republican incumbents and 33 Democrats had been defeated. The Republican loss rate of 7.1% far exceeds the Democratic rate of 2.8%. It also significantly exceeds the 3.6% average Republican incumbent loss rate over the previous decade in those states, as well as the 4.4% Republican loss rate in those states during the last redistricting election cycle in 2012.

Idaho voters have led the way in ousting Republican incumbents, defeating 18 GOP lawmakers — or 30% of those who sought reelection — even while choosing GOP Gov. Brad Little over a Trump-backed challenger who claimed he wasn't conservative enough. The losers included three lawmakers representing Kootenai County in northern Idaho, where a local Republican committee recommended conservative challengers against some incumbents after a lengthy vetting process.

(AP) — As Wisconsin's longest-serving Assembly speaker, Republican Robin Vos has presided over efforts to restrict abortions, weaken unions, expand gun rights and push back against COVID-19 mandates. Despite that, he's facing a primary challenger who claims he's not conservative enough.

The challenger's argument: Vos should do more to respond to former President Donald Trump's unfounded allegations of fraud in the 2020 election.

Primary challengers like the one facing Vos next Tuesday have been successfully targeting incumbent state lawmakers across the country, and Republicans are taking the brunt of it.

With more than half the state legislative primaries concluded, Republican incumbents this year have been losing at nearly twice the average rate of the past decade, according to data compiled for The Associated Press by the election tracking organization Ballotpedia. The primary loss rate for Democratic state lawmakers is similar to previous elections.

The Republican losses continued to mount Tuesday, as Trump-endorsed candidates ousted incumbent state senators in Arizona and Michigan and a conservative challenger beat the assistant majority leader of the Missouri Senate. Though not technically an incumbent, Arizona House Speaker Rusty Bowers also lost a bid for state Senate after being criticized for refusing to help Trump's efforts to overturn the 2020 election.

In many cases, Republican lawmakers are being defeated by challengers portraying themselves as more conservative on election integrity, transgender policies, school instruction and other hot-button issues.

"We have a far-right faction that is very dissatisfied with what's happening on the left. So if you are not rabidly a fanatic that just punches every button, then you're going to have an issue," said Arkansas state Rep. Craig Christiansen, who lost in a Republican primary earlier this year.

Though Christiansen considers himself "very conservative," he drew multiple challengers and failed to advance to a runoff. That came after he voted against overriding Republican Gov. Asa Hutchinson's veto of legislation making Arkansas the first state banning gender-confirming treatments for those younger than 18. Christiansen said he con-

Feds charge 4 police officers in fatal Breonna Taylor raid

(AP) — The federal government filed civil rights charges Thursday against four Louisville police officers over the drug raid that led to the death of Breonna Taylor, a Black woman whose fatal shooting helped fuel the racial justice protests that rocked the nation in 2020.

The charges are another effort to hold law enforcement accountable for the killing of the 26-year-old medical worker after one of the officers was acquitted of state charges earlier this year.

“Breonna Taylor should be alive today,” Attorney General Merrick Garland said in announcing the charges, which include unlawful conspiracy, use of force and obstruction of justice.

The charges named former officers Joshua Jaynes and Brett Hankison, along with current officers Kelly Goodlett and Sgt. Kyle Meany. Most of the charges stem from the faulty drug warrant used to search Taylor’s home.

Hankison was the only officer charged Thursday who was on the scene that night. Louisville police said they are seeking to fire Goodlett and Meany.

Taylor was shot to death by officers who knocked down her door while executing a search warrant. Taylor’s boyfriend fired a shot that hit one of the officers as they came through the door, and they returned fire, striking Taylor multiple times.

Local activists and members of Taylor’s family celebrated the charges and thanked federal officials. Supporters gathered in a downtown park and chanted: “Say her name, Breonna Taylor!”

“This is a day when Black women saw equal justice in America,” family lawyer Benjamin Crump said.

Taylor’s mother, Tamika Palmer, said she has waited nearly 2 1/2 years for police to be held accountable.

“Today’s overdue, but it still hurts,” she said. “You all (are)

learning today that we’re not crazy.”

The Justice Department is also conducting a non-criminal investigation of the Louisville Police Department, announced last year, that is probing whether the department has a pattern of using excessive force and conducting unreasonable search and seizures.

In the protests of 2020, Taylor’s name was often shouted along with George Floyd, who was killed less than three months after Taylor by a Minneapolis police officer in a videotaped encounter that shocked the nation.

Protesters who took to the streets over months in Louisville were especially critical of Kentucky Attorney General Daniel Cameron, who presented only wanton endangerment charges against Hankison for a grand jury to consider in 2020. Members of the grand jury later came forward to complain that Cameron’s office had steered them away from charges for the other officers involved in

the raid.

“Thank God that Kentucky Attorney General Daniel Cameron did not get the last word in regard to justice for Breonna Taylor,” Crump said Thursday. “We have always said this was a conspiracy to cover up the death of Breonna Taylor. Today the Justice Department put forth the charging documents to show we weren’t crazy.”

Cameron, a Republican running for governor next year, said in announcing the in-

dictment against Hankison in September 2020 that he would leave “issues regarding potential civil rights violations” to federal officials to investigate. Cameron had not responded to a request for comment Thursday afternoon.

Garland said the officers who were at Taylor’s home just after midnight on March 13, 2020, “were not involved in the drafting of the warrant, and were unaware of the false and misleading statements.”

Jill Biden carries out new mission in 2nd year as first lady

(AP) — Jill Biden barnstormed the country during her debut year as first lady as if on a one-woman mission to help her husband’s administration tackle the problem of the moment: getting people vaccinated and boosted

against the deadly COVID-19 pandemic.

New headwinds blowing in year two — President Joe Biden’s low standing with the public and November elections that could put Republicans back in control of

Congress — have set her on a fresh mission: working to help elect Democrats who can help her husband.

She’s making no secret of her frustration with Washington.

“Joe truly believes in working with Congress and getting things done, but obviously the Republicans are pulling together and they’re not budging. They are not budging,” the first lady said at one of four fundraisers she headlined in the past month.

“Who would think that AR-15s make any sense for anything? Who doesn’t believe in the need to deal with climate change?” she said at a July fundraiser in Nantucket, Massachusetts, referencing Republican opposition to the president’s call for an assault weapons ban and more spending on climate change.

With school out for the summer, the teacher-first lady was free to travel again in her role as the president’s chief surrogate, highlighting administration accomplishments and showing a more political

side while testing possible fall campaign messages before audiences big and small.

She put a voice to the urgency she and the president feel over unfinished aspects of his agenda.

After accompanying him to the scene of deadly mass shootings at a grocery store in Buffalo, New York, and an elementary school in Uvalde, Texas, the first lady — a community college professor — urged audiences to demand tougher gun laws from Congress.

“We need to fight, now, for the lives of our children and for the safety of our schools,” she told the National PTA Convention in June, shortly after they visited Robb Elementary School in Uvalde, where 19 pupils and two teachers were killed by a man firing an AR-15.

Congress represents “the will of the people,” she said, “and that’s why we need the people to speak up. Parents and teachers. All of us.”

She raised the gun issue later at the American Federation of Teachers convention in Boston in July, saying that “we believe that AR-15s, the weapon that tore apart 19 children and two teachers in their classroom, have no place on our streets.”

And she turned the Supreme Court’s decision overturning the constitutional right to an abortion into an argument for sending more Democrats to Congress come November. President Biden has promised to sign a bill enshrining the right to an abortion in federal law, but there isn’t enough support for it in Congress, where Democrats have slim majorities.

“All of us have a teacher voice for when things go off the rails and now is the time to use it,” she said in Boston.

In Nantucket, the first lady defended her spouse of 45 years, saying “he’s just had so many things thrown his way” that weren’t expected, including the abortion ruling and Russia’s war against Ukraine.

Ousted prosecutor Chesa Boudin won't run for his old seat

(AP) — Ousted San Francisco District Attorney Chesa Boudin, who was recalled from his post in June, said Thursday that he will not campaign for his old seat in the November election.

The progressive criminal justice reformer tweeted that nonstop campaigning has taken a toll on his family, which includes his son born last

September and his elderly father, a former Weather Underground radical who was released from prison after serving more than four decades for his role in a fatal robbery.

“My son is on the verge of taking his first step and speaking his first word,” Boudin said. “My wife’s research on multiple sclerosis at (University of California, San Francisco) deserves

the same support she has offered my work.”

Boudin said that sitting out the November election does not preclude him for running for district attorney in 2023 for a full four-year term.

Boudin, 41, was recalled from office in June barely three years after he won office in November 2019 — amid frustration and anxiety over the pandemic and viral footage of Asian seniors being assaulted in San Francisco.

His platform of seeking alternatives to incarceration, offering restorative justice and giving defendants second chances did not resonate with some voters who became convinced that the city was sinking into petty lawlessness.

San Francisco Mayor London Breed appointed Boudin recall campaign leader Brooke Jenkins as interim district attorney until the November election.

Jenkins on Wednesday announced she has revoked 30 open plea offers to

accused fentanyl dealers presented by Boudin’s administration, saying the deals’ terms were too lenient.

Jenkins plans to run in November in an attempt to serve the rest of Boudin’s term through 2023. Also in the race is Joe Alioto Veronese, a civil rights attorney and grandson of former San Francisco Mayor Joseph Alioto.

Boudin said in his announcement that he was “gravely concerned” that the progressive policies implemented by his administration are being rolled back by Jenkins.

Boudin, whose mother died in May, said the demands of his job had prevented him from cleaning out her apartment and planning her memorial.

His mother was Kathy Boudin, also a former Weather Underground radical. She served more than two decades in prison for her role in the 1981 armored truck robbery and died of cancer. Her husband, David Gilbert, was granted parole last October.

Dried blood and roses: Jury gets rare look at Parkland scene

(AP) — Roses that had been brought to honor love on that Valentine’s Day in 2018 lay withered, their dried and cracked petals scattered across classroom floors still smeared with the blood of victims gunned down by a former student more than four years earlier.

Bullet holes pocked walls and shards of glass from windows shattered by gunfire crunched eerily underfoot at Parkland’s Marjory Stoneman Douglas High School, where shooter Nikolas Cruz murdered 14 students and three staff members. Nothing had been changed, except for the removal of the victims’ bodies and some personal items.

The 12 jurors and 10 alternates who will decide whether Cruz gets the death penalty or life in prison made a rare visit to the massacre scene Thursday, tracing Cruz’s steps through the three-story freshman building, known as “Building 12.” After they left, a group of journalists was allowed in for a much quicker first public view.

The sight was deeply unsettling: Large pools of dried blood still stained classroom floors. A lock of dark hair

rested on the floor where one of the victims’ bodies once lay. A single black rubber shoe was in a hallway. Brownd rose petals were strewn across a hallway where six people died.

In classroom after classroom, open notebooks displayed uncompleted lesson plans: A blood-coated book called “Tell Them We Remember” sat atop a bullet-riddled desk in the classroom where teacher Ivy Schamis taught students about the Holocaust. Attached to a bulletin board in the room a sign read: “We will never forget.”

In the classroom of English teacher Dara Hass, where the most students were gunned down, students had written papers about Malala Yousafzai, the Pakistani teenager who was shot by the Taliban for going to school and has since been a global advocate for educational access for women and girls.

One of the students wrote: “A bullet went straight to her head but not her brain.” Another read: “We go to school every day of the week and we take it all for granted. We cry and complain without knowing how lucky we are to be able to learn.”

The door of Room 1255, teacher Stacey Lippel’s classroom, was pushed open — like others to signify that Cruz shot into it. Hanging on a wall inside was a sign reading, “No Bully Zone.” The creative writing assignment for the day was written on the whiteboard: “How to write the perfect love letter.”

And still hanging on the wall of a second-floor hallway was a quote from James Dean: “Dream as if you’ll live forever, live as if you’ll die today.”

Inside slain teacher Scott Beigel’s geography classroom, his laptop was still

open on his desk. Student assignments comparing the tenets of Christianity and Islam remained there, some graded, some not. On his whiteboard, Beigel, the school’s cross-country coach, had been writing the gold, silver and bronze medalists in each event at the Winter Olympics, which had begun five days earlier.

Prosecutors, who rested their case following the jury’s tour, hope the visit will help prove that Cruz’s actions were cold, calculated, heinous and cruel; created a great risk of death to many people and “interfered with a government function”

— all aggravating factors under Florida’s capital punishment law.

Under Florida court rules, neither the judge nor the attorneys were allowed to speak to the jurors — and the jurors weren’t allowed to converse with each other — when they retraced the path Cruz followed on Feb. 14, 2018, as he methodically moved from floor to floor, firing down hallways and into classrooms as he went. Prior to the tour, the jurors had already seen surveillance video of the shooting and photographs of its aftermath.

Myanmar charges Japanese journalist with spreading fake news

(AP) — A Japanese video journalist detained in Myanmar while covering a brief pro-democracy march has been charged with violating a law against spreading false or alarming news, the Southeast Asian country's military government announced Thursday.

Toru Kubota, a Tokyo-based documentary filmmaker, was arrested Saturday by plainclothes police after taking images of the protest.

He is the latest of about 140 journalists arrested since the military seized power last year from the elected government of Aung San Suu Kyi. More than half have been released, but the media remains under tight restrictions.

A military information office, the Tatmadaw True News Information Team, said in a statement that Kubota was

charged with incitement, specifically causing fear, spreading false news, or agitating against a government employee. It carries a penalty of up to three years in prison. Most of Myanmar's imprisoned journalists were charged under the same law.

Kubota is also charged with violating visa regulations. The statement said Kubota arrived in Yangon from Thailand on July 1 with a tourist visa. Kubota is the fifth foreign journalist detained in Myanmar, after U.S. citizens Nathan Maung and Danny Fenster, who worked for local publications, and freelancers Robert Bociaga of Poland and Yuki Kitazumi of Japan. They were all eventually deported.

The army's takeover was opposed by widespread peaceful protests that were suppressed with lethal force. Opposition continues with peaceful flash protests in cities and towns,

and armed resistance in the countryside.

According to a detailed tally by the Assistance Association for Political Prisoners, at least 2,148 civilians have been killed by the security forces and 14,970 arrested since the military took power.

The military statement said Kubota was detained in Yangon's South Dagon township while taking pictures and videos of 10-15 protesters. It said he confessed to police that he had contacted participants in the protest a day earlier to arrange to film it.

The statement didn't mention where he is being held. Two protesters in Saturday's march were also arrested, according to the protest organizers, but there was no comment about them from the military.

Japanese Deputy Chief Cabi-

net Secretary Seiji Kihara said on Monday that "a Japanese male citizen in his 20s" was arrested Saturday while filming a demonstration in Yangon and that Japanese Embassy officials have requested his early release.

Friends of Kubota in Japan on Wednesday called for his immediate release, and an online petition has collected more than 41,000 signatures demanding his freedom.

A graduate of Tokyo's Keio University with a master's degree from the University of the Arts London, Kubota, 26, has done assignments for Yahoo! News Japan, Vice Japan and Al Jazeera English.

His work has focused on ethnic conflicts, immigrants and refugee issues, including the plight of Myanmar's persecuted Rohingya Muslim minority.

Construction begins at Fukushima plant for water release

(AP) — The construction of facilities needed for a planned release of treated radioactive wastewater into the sea next year from the damaged Fukushima nuclear power plant began Thursday despite opposition from the local fishing community.

Plant workers started construction of a pipeline to transport the wastewater from hillside storage tanks to a coastal facility before its planned release next year, according to the plant operator, Tokyo Electric Power Company Holdings. The digging of an undersea tunnel was also to begin later Thursday.

Construction at the Fukushima Daiichi plant follows the Nuclear Regulation Authority's formal approval last

month of a detailed wastewater discharge plan that TEPCO submitted in December.

The government announced last year a decision to release the wastewater as a necessary step for the plant's ongoing decommissioning.

A massive earthquake and tsunami in 2011 destroyed the Fukushima Daiichi plant's cooling systems, causing triple meltdowns and the release of large amounts of radiation. Water that was used to cool the three damaged and highly radioactive reactor cores has since leaked into basements of the reactor buildings but was collected and stored in tanks.

TEPCO and government officials say the water will be further treated

to levels far below releasable standards and that the environmental and health impacts will be negligible. Of more than 60 isotopes selected for treatment, all but one — tritium — will be reduced to meet safety standards, they say.

Local fishing communities and neighboring countries have raised concerns about potential health hazards from the radioactive wastewater and the reputation damage to local produce, and oppose the release.

Scientists say the impact of long-term, low-dose exposure to not only tritium but also other isotopes on the environment and humans are still unknown and that a release is premature.

The contaminated water is being stored in about 1,000 tanks that require much space in the plant complex. Officials say they must be removed so that facilities can be built for its decommissioning. The tanks are expected to reach their capacity of 1.37 million tons in autumn of 2023.

TEPCO said it plans to transport treated and releasable water through a pipeline from the tanks to a coastal pool, where it will be diluted with seawater and then sent through an undersea tunnel with an outlet about 1 kilometer (0.6 miles) away to minimize the impact on local fishing and the environment.

TEPCO and the government have obtained approval from the heads of the plant's host towns, Futaba and

Okuma, for the construction, but local residents and the fishing community remain opposed and could still delay the process. The current plan calls for a gradual release of treated water to begin next spring in a process that will take decades.

On Wednesday, Fukushima Gov. Masao Uchibori and the two mayors visited Tokyo and asked Economy and Industry Minister Koichi Hagiuda to ensure safety and prevent further damage to the reputation of Fukushima fishing products.

Akira Ono, TEPCO chief decommissioning officer at the plant, promised the highest efforts to ensure safety and understanding.

"We are aware of various views on reputational impact and safety concerns (of the release) and we'll keep explaining thoroughly to stakeholders," he said.

TEPCO said Wednesday that weather and sea conditions could delay a completion of the facility until summer 2023.

Japan has sought help from the International Atomic Energy Agency to ensure the water release meets international safety standards and reassure local fishing and other communities and neighboring countries, including China and South Korea, that have opposed the plan.

IAEA experts who visited the plant earlier this year said Japan was taking appropriate steps for the planned discharge.

Norway's king hospitalized due to fever; in stable condition

(AP) — Norway's 85-year-old King Harald V has been admitted to a hospital in the capital Oslo due to an examination relating to fever, the Norwegian palace said in a brief statement Thursday.

"His Majesty The King was admitted to Rikshospitalet today for investigation for

fever," the royal household said, adding that the monarch's condition is stable.

Rikshospitalet is part of the Oslo University Hospital, the main hospital in Oslo.

In March, Harald tested positive for COVID-19, with mild symptoms. He went through a successful opera-

tion to replace a heart valve in October 2020 after being hospitalized with breathing difficulties.

Harald's duties as Norway's head of state are ceremonial, and he holds no political power. He ascended to the throne following the death of his father, King Olav, on Jan. 17, 1991.

French PM announces the creation of new LGBTQ ambassador job

(AP) — French Prime Minister Elisabeth Borne on Thursday announced the creation of a new position of ambassador for LGBTQ rights in efforts to fight discrimination across the world.

Borne spoke while visiting an LGBTQ center in Orleans, central France, on the 40th anniversary of the decriminalization of homosexuality in the country.

Borne said an ambassador will be named by the end of the year and will notably

be in charge of pushing for universal decriminalization of homosexuality and trans identity.

She also announced the creation of a 3 million-euro (\$3.05 million) fund to finance ten new LGBT+ centers, in addition to the 35 already existing in France.

Borne's announcements followed criticism of the government after one minister made comments seen as stigmatizing homosexuality and LGBTQ people.

Asked about her opposition to France's 2013 law authorizing gay marriage and adoption, the minister, Caroline Cayeux, said: "I have a lot of friends among all those people." The remarks last month shocked many LGBTQ people and activists against discrimination and abuse, and provoked calls for her resignation.

On Thursday, Borne said that "the President of the Republic's approach, my approach, the government's approach is not ambiguous: we will continue to fight to make

progress on the rights of the LGBTQ."

Borne added that the minister "made unfortunate comments, she apologized."

Ukrainian cities shelled, including one near nuclear plant

(AP) — Powerful explosions rattled the southern Ukrainian city of Mykolaiv on Thursday and a city close to the country's biggest nuclear power plant sustained a barrage of shelling, part of a series of new Russian attacks in several regions, Ukrainian officials said.

Ukrainian authorities said shelling of a town in the eastern Donetsk region, where fighting has been focused in recent weeks, left at least eight people dead. And the mayor of the separatist-held city of Donetsk said six were killed in shelling there.

Ukraine's presidential office said in its daily update that nine Ukrainian regions came under fire over the previous 24 hours. Two districts of Mykolaiv, which has been targeted frequently in recent weeks, were shelled early Thursday morning.

Russian forces reportedly fired 60 rockets at Nikopol, in the central Dnipropetrovsk region. Some 50 residential buildings were damaged in the city of 107,000 and some projectiles hit power lines, leaving city residents without electricity, according to Ukrainian authorities.

Nikopol is located across the Dnieper river from the Zaporizhzhia nuclear power plant, which was taken over by Russian troops early in the war.

Experts at the U.S.-based Institute for the Study of War believe that Russia is shelling the area intentionally, "putting Ukraine in a difficult position."

The head of the U.N. nuclear watchdog agency earlier this week voiced alarm over the situation at the Zaporizhzhia plant.

Russian Defense Ministry spokesman Lt. Gen. Igor Konashenkov said Thursday that the Russian military had struck two Ukrainian munitions depots near the village of Novoivanivka in the Zaporizhzhia region and a fuel depot near the Zaporizhzhia railway station.

In northern Ukraine, the country's second-largest city, Kharkiv, was being shelled from Russia, the presidential office said. Several industrial facilities were hit in the city, which has been a frequent target. In the nearby city of

Chuhuiv, a rocket hit a five-story residential building.

Fighting continued in the fiercely contested Donetsk region, with Ukrainian authorities saying a school was destroyed in the village of Ocheretyne. The region is struggling without gas supplies and, in part, without power and water supplies; its residents are being evacuated.

In the town of Toretsk, artillery shells hit a bus stop, a church and apartment buildings, killing at least eight people and wounding four, regional governor Pavlo Kyrilenko said.

In the city of Donetsk, Russian-backed separatist authorities blamed Ukrainian forces for shelling the central part of the city Thursday. The area hit was near a theater where a farewell ceremony for a prominent separatist officer killed a few days ago was being held. Donetsk Mayor Alexei Kulemzin said six people were killed and seven more wounded.

Mykhailo Podolyak, an adviser to Ukrainian President Volodymyr Zelenskyy, de-

nied Ukrainian involvement. He alleged, without offering evidence, that Russian or separatist forces were responsible for the shelling.

Russia and Ukraine have repeatedly accused each other of firing on territories under their own control. Russian forces have already seized the Luhansk region that neighbors Donetsk. Its Ukrainian governor, Serhiy Haidai, said on social media that local residents are being mobilized to fight against Kyiv's forces and that "even indispensable mine workers are being taken."

Ukrainian authorities reported another abduction of a mayor who reportedly refused to collaborate with the Russians in the southern Kherson region, which is also almost entirely occupied.

The reported kidnapping of Serhiy Lyakhno, the mayor of the village of Hornostaivka, comes as Russia amasses more troops in the area in anticipation of a counteroffensive by Kyiv and ahead of a planned referendum on the region becoming part of Russia.

Russian judge sentences WNBA's Griner to 9 years in prison

(AP) — A judge in Russia has convicted and sentenced American basketball star Brittney Griner to nine years in prison for drug possession and smuggling.

Judge Anna Sotnikova said the time Griner has served in custody since her arrest in February would count toward the sentence.

Griner reacted to the sentence with little emotion. She listened to the verdict with a blank stare on her face. While recapping the evidence and giving her findings Thursday, the judge said the 31-year-old Griner illegally brought drugs into Russia.

Before the unusually quick verdict was announced, Griner made a final appeal to the court. She said she had no intention to break the law by bringing vape cartridges with cannabis oil into the country when she flew to Moscow in February to play basketball in the city of Yekaterinburg.

Earlier in the session, with a conviction all but certain, an emotional Griner made a final appeal to the court for leniency. She said she had no intention to break the law by bringing vape cartridges with cannabis oil when she flew to Moscow in February to play basketball in the city of Yekaterinburg.

"I want to apologize to my teammates, my club, my fans and the city of (Yekaterinburg) for my mistake that I made and the embarrassment that I brought on them," Griner said, her voice cracking. "I want to also apologize to my parents, my siblings, the Phoenix Mercury organization back at home, the amazing women of the WNBA, and my amazing spouse back at home."

Griner said Yekaterinburg, a city east

of the Ural Mountains, had become her "second home."

Prosecutor Nikolai Vlasenko insisted that Griner packed the cannabis oil deliberately, and he asked the court to hand Griner a fine of 1 million rubles (about \$16,700) in addition to the prison sentence.

Lawyers for the Phoenix Mercury center and two-time Olympic gold medalist have sought to bolster Griner's contention that she had no criminal intent and that the canisters ended up in her luggage by mistake. They presented character witnesses from the Yekaterinburg team that she plays for in the WNBA offseason and written testimony from a doctor who said he prescribed her cannabis for pain treatment from injuries sustained in her basketball career.

Her lawyer, Maria Blagovolina, argued that Griner used the cannabis only in Arizona, where medical marijuana is legal. She emphasized that Griner was packing in haste after a grueling flight and suffering from the consequences of COVID-19. Blagovolina also pointed out that the analysis of cannabis found in Griner's possession was flawed and violated legal procedures.

Blagovolina asked the court to acquit Griner, noting that she had no past criminal record and hailing her role in "the development of Russian basketball."

Another defense attorney, Alexander Boykov, emphasized Griner's role in taking her Yekaterinburg team to win multiple championships, noting that she was loved and admired by her teammates. He told the judge that a conviction would undermine Rus-

sia's efforts to develop national sports and make Moscow's call to depoliticize sports sound shallow.

Boikov added that even after her arrest, Griner won the sympathy of both her guards and prison inmates, who supported her by shouting, "Brittney, everything will be OK!" when she went on walks at the jail. Before her trial began in July, the State Department designated her as "wrongfully detained," moving her case under the supervision of its special presidential envoy for hostage affairs, effectively the government's chief hostage negotiator.

Then last week, in an extraordinary move, Blinken spoke to Russian Foreign Minister Sergey Lavrov, urging him to accept a deal under which Griner and Paul Whelan, an American imprisoned in Russia on an espionage conviction, would go free.

The Lavrov-Blinken call marked the highest-level known contact between Washington and Moscow since Rus-

sia sent troops into Ukraine more than five months ago. The direct outreach over Griner is at odds with U.S. efforts to isolate the Kremlin.

People familiar with the proposal say it envisions trading Griner and Whelan for the notorious arms trader Viktor Bout, who is serving a prison sentence in the United States. It underlines the public pressure that the White House has faced to get Griner released.

White House Press Secretary Karine Jean-Pierre said Monday that Russia has made a "bad faith" response to the U.S. government's offer, a counteroffer that American officials don't regard as serious. She declined to elaborate.

Russian officials have scoffed at U.S. statements about the case, saying they show a disrespect for Russian law. They remained poker-faced, urging Washington to discuss the issue through "quiet diplomacy without releases of speculative information."

Jamaica upsets Australia in Commonwealth Games netball

(AP) — Jamaica caused a major upset in Commonwealth Games netball when it topped gold medal favorite Australia after a stunning comeback on Thursday.

The Sunshine Girls qualified

Jamaica overcame a six-goal deficit at the start of the last quarter to clinch their first triumph over Australia in the Games, with captain Jhaniele Fowler starring in attack. Fowler, who plays in Australia's domestic competition for the Perth-based West Coast Fever, scored 47 goals from 50 attempts and said the win boosted her confidence in Jamaica's hopes of winning the gold medal.

"It's a bit surreal to beat Australia in a Commonwealth Games," she said. "We've not done that before, but this team of ours is incredible and we went out there and proved everyone wrong and it feels so good. Our mindset from the start was that we are as good as

them, if not better. We have so much discipline and focus in our squad."

Who Jamaica or top-ranked Australia face in the semi-finals will be decided after England and New Zealand meet late Thursday.

In athletics, champion Jamaican sprinter Elaine Thompson-Herah returned to Alexander Stadium just over 12 hours after her triumph in the 100 meters on Wednesday night.

A double Olympic champion in the 200, she qualified second fastest for Friday's semi-finals in an easy heat win in 22.80 seconds.

Nigeria's Favour Ofoli post-

ed the quickest heat time of 22.71.

Four years after being disqualified on the Gold Coast for impeding a rival before crossing first in the 200, England's Zharnel Hughes posted the fastest men's heat time of 20.30.

Trinidad and Tabago's Jareem Richards, who was promoted to the gold medal on the Gold Coast after being impeded by Hughes, qualified third fastest in 20.68.

Pre-race favorite Grace Brown from Australia won the women's road cycling time trial in the Black Country around Wolverhampton with an outstanding performance.
